**SAMAA REGISTERED MODEL AIRCRAFT CLUBS
AND FLYING FIELDS (October 2011)**

Table of Contents

1. Purpose
 1. Fixed Wing Model Aircraft
 2. Outstanding Club Registrations
 3. New Club registrations
 4. List of SAMAA Registered Flying fields

This document forms part of the SAMAA Manual of Procedures. It is to be used by SAMAA Members and Registered Clubs in all activities associated with the flying of model aircraft in the RSA

1. Purpose

This policy contains a list of all SAMAA Registered fields, as submitted to RAASA together with our ARO Renewal Application on the 15th October 2010.

Each of these Clubs, in accordance with the latest CAA policy;

- 1.) Will be recorded and covered by a AIC or AIP's (Aeronautical Information Publication) issued by the CAA to all full size aircraft pilots.
- 2.) Will be shown, as a Model flying Club, on all RSA large scale Aviation maps.

Each Club in return shall, conform and strictly comply with the SAMAA Operating Policies and Procedures, as it was on the submittal and acceptance of these Operational Policies and Procedures that SAMAA was appointed the "Aviation Recreational Organisation" by the CAA for Model Aircraft Flying in the RSA.

2. Outstanding Club Applications for Registration

A number of Applications for Registration have been received by SAMAA over the last few months, and these, in accordance with the CAA (RAASA) requirements, as set out in the Operations Manual PR 05, these have been submitted for location approval, and approval is awaited..

It must be noted that the ruling made at a meeting held with NASCOM (CAA Authorising Committee) at the CAA offices on the 10 th February 2011, and as set out in SAMAA PR 04, now requires a more formalised process to be followed, before a Club or field can be registered, especially in the case of a Model flying Club or field situated in the CTR or within 5 NM of an existing full size aerodrome or airfield, requesting registration.

3. New Club Registrations

Any new Club wishing to be SAMAA Registered, will need to follow the Procedure PR 05, as set out in the Manual of Operations, and submit the forms to SAMAA for processing.

SAMAA must make it clear that the acceptance of a request from a potential Club, in no way authorises that club to establish, spend money on development or to fly at that venue. Only the written Approval from the CAA allows SAMAA to register and authorise the Club to establish.

Clubs who restrict model flying to under 150 feet agl. are more easily registered.

4. List of SAMAA Registered Flying Fields.
